Summary

B.Tech graduate in AI/ML with hands-on experience building Generative AI applications and Full Stack web solutions. Leverages a professional background in QA Automation (Playwright, API Testing) to develop highly reliable, scalable AI pipelines and robust APIs. Proficient in Python, React.js, Django, and integrating LLMs to solve complex product challenges.

Education

KITS Akshar Institute of Technology
Bachelor of Technology in Artificial Intelligence and Machine Learning

10/2022 – 04/2026
Yanamadala, India

Skills

AI/ML & GenAI — Machine Learning, Deep Learning, Generative AI, LLMs, NLP, Computer Vision, OpenCV, Scikit-learn

Programming Languages — Python, Java, JavaScript, TypeScript, SQL

Full Stack Development — HTML5, CSS3, React, Node.js, Express.js, Django

QA & Automation — Playwright, Karate, API Testing, POM

Databases — MySQL, Firebase Firestore

Version Control — Git, GitHub.

Development Tools — VS Code, Maven

Professional Experience

PUBLICIS SAPIENT
QA Automation Intern
Sustain Engineering Team

05/2026 – 06/2026
Hyderabad, India

- Reduced manual regression **effort by 60%+** by developing end-to-end UI and API automation suites using Playwright and Karate.
- Developed **30+ reusable** Playwright scripts using the Page Object Model (POM) and **JavaScript**, improving test reusability and **CI/CD pipeline** integration.
- Automated complex **REST API** testing workflows with Karate, validating JSON payloads and database state to ensure backend reliability before production deployments.

Projects

Edu Carrier — AI-Powered Career Guidance Platform

React.js, TypeScript, Vite, Tailwind CSS, Node.js, Express.js, Firebase Firestore, Gemini GenAI

- **Live Demo:** <https://career-guidance-f6x9.onrender.com/> 
- Developed and deployed an AI-powered career guidance platform for exploring **careers, educational streams, courses, entrance exams, resources, and personalized career pathways**.
- Implemented **Career Quiz, career recommendations, skill-gap analysis, career roadmaps, career comparison, saved careers, and progress tracking**.
- Built an **AI Career Guide**, student dashboard, and admin panel with dynamic activities including **quizzes, challenges, tasks, news, announcements, and events**.

Scriptoria AI — Film Pre-Production System

Python, Django, Generative AI, Groq GenAI, Image Generation

- Developed an **AI-powered film pre-production platform** for story development, storyboard generation, and shot planning.
- Transformed scripts into **structured visual production plans** with AI-assisted scene and shot generation.
- Integrated **Django, Groq GenAI, and image-generation capabilities** for automated creative pre-production workflows.

NewEdu – Full Stack AI-Powered Learning Platform

Generative AI, Groq API, HTML, CSS, JavaScript, MySQL

- Developed an AI-powered learning platform for **personalized, practical, and skill-oriented education** with student, teacher, parent, and admin modules.
- Integrated **Groq GenAI** for AI-assisted learning, personalized guidance, and career exploration with class-based access and learning management.

Playwright Automation Framework

JavaScript, Playwright, ExcelJS, Page Object Model (POM)

- Developed a reusable **Playwright automation framework** using JavaScript and **Page Object Model (POM)**.
- Automated **login, CRUD operations, pagination, and form validation** using data-driven test cases and ExcelJS.
- Implemented reusable utilities and synchronization strategies to improve **test stability and maintainability**.

Certificates

- **Software Engineer Intern:**  HackerRank | 2026
- **SDLC – Software Development Life Cycle:**  Udemy | 2026
- **Advanced Prompting in GPT-4:** Adobe Learning Manager | 2026
- **SQL (Intermediate):**  HackerRank | 2026
- **Python Programming:**  Aajhub | 2025
- **Full Stack Web Development:**  Aajhub | 2025
