SUMMARY

B.Tech graduate in Artificial Intelligence & Machine Learning with hands-on experience in **Generative AI, Machine Learning, Full Stack Development, and QA Automation**. Skilled in **Python, JavaScript, React.js, SQL, REST APIs, Playwright, Karate, and LLM APIs**. Experienced in building AI-powered applications, web platforms, automated testing frameworks, and API validation workflows.

EDUCATION

KITS Akshar Institute of Technology, B.Tech — Artificial Intelligence & Machine Learning

10/2022 – 04/2026
Yanamadala

PROFESSIONAL EXPERIENCE

- MANAC Infotech, AI/ML & Software Development Intern

07/2026 – Present
Hyderabad, Telangana

 - Developed and tested AI/ML applications using **Python, Streamlit, APIs, and Generative AI** technologies.
 - Built application features, performed debugging and functional testing, and improved project UI/UX and reliability.
- Publicis Sapient, QA Automation Intern

05/2026 – 06/2026

 - Developed **30+ reusable Playwright automation scripts** using Page Object Model, reducing manual regression effort by **60%+**.
 - Automated UI and API validation using **Playwright, Karate, REST APIs, JavaScript, JSON, and database-state validation**.

PROJECTS

- Edu Carrier — AI-Powered Career Guidance Platform, React.js | AI/ML | APIs

 - Developed a career guidance platform enabling students to explore careers, educational pathways, opportunities, and personalized recommendations.
 - Implemented responsive interfaces and AI-driven career guidance features for personalized student experiences.
- Scriptoria AI — Film Pre-Production System, Python | Django | Generative AI | APIs

 - Built an AI-powered platform for film pre-production with **story generation, storyboard generation, shot generation, and production workflows**.
 - Integrated Generative AI capabilities to automate creative pre-production tasks.
- NewEdu — AI-Powered Education Platform, Python | Django | AI/ML | MySQL

 - Developed a skill-oriented education platform with **AI tutoring, career discovery, personalized learning, and student-focused workflows**.
 - Implemented career exploration features including **112+ career records, search/filtering, quizzes, recommendations, salary insights, comparison, and roadmaps**.
- Playwright Automation Framework, Playwright | JavaScript | REST APIs | Karate

 - Developed a reusable automation framework using **Page Object Model, Playwright, API testing, and structured test workflows**.
 - Implemented reusable test scripts, validation logic, and automation components for scalable regression testing.

SKILLS

Languages Python, Java, JavaScript, SQL	Frontend React.js, HTML5, CSS3, JavaScript	Backend Node.js, Express.js, REST APIs	AI/ML Machine Learning, Generative AI, LLMs, Prompt Engineering, OpenCV, NumPy, Pandas, Scikit-learn
Testing Playwright, Karate, API Testing, POM, Functional Testing	Database MySQL, Firebase	Tools Git, GitHub, VS Code, Streamlit, Groq API, Gemini API	

CERTIFICATES

HackerRank — Software Engineer Intern  | Udemy — SDLC  | Advanced Prompting — Adobe Learning
